MLS Tips and Reminders:

With warm weather coming, please be diligent in not adjusting the A/C and please leave doors and windows as you found them when showing property.

Please discard any **GAAR forms for new members/MLS service**. These forms are continually changing and we need to provide the correct forms to new members when they call for an appointment. We ask that you not hold onto the old forms.

Listing input tip: We have had several calls lately when agents could not complete the input process because the County/City/Locality was not filled in at the beginning of the process. The field is listed near the top because if you do not complete this field in the beginning, you might receive choice lists or drop downs for the incorrect area (subdivision, schools and zoning) which will cause the listing to not be saved.
